

ENVIRONMENTAL POLICY

ENVIRONMENTAL POLICY

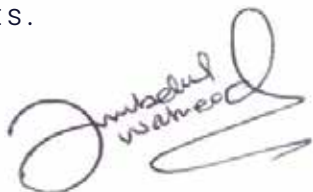

POLICY STATEMENT

Surrey Security Services Limited believes that business has a responsibility to achieve good environmental practice. We at Surrey Security Services accept our environmental responsibilities and recognise our obligations to contribute to a better and improved working environment.

Through an efficient and effective utilisation of resources and support from our customers, we aim to:

1. Vigorously comply with all relevant legislation, codes of practice and regulations
2. Continually seek to improve our environmental performance.
3. Reduce water and energy use.
4. Quantify and reduce our environmental impacts through careful planning, control, and management of sites assignments.
5. Identify and manage environmental risks and hazards.
6. Involve customers, employees, clients, suppliers, and subcontractors in the implementation of our objectives.
7. Promote environmentally responsible purchasing.
8. Establish targets to measure the continuous improvement in our environmental performance.

We recognise that differences exist between sites and their managements. However, we hope to maintain and implement our environmental plan regarding the principles and standards we have established and customers' site assignments, on which its success will be assessed. Surrey Security Services aims to ensure the implementation of these commitments.
